2018-19 Finance Update

6. The committee was asked to note the forecast position as at 31 October 2018. The forecast against budget shows a small cash overspend – mainly attributable to Office & Admin Costs, Post Mortem pressures and Centrally Managed costs. The forecast position includes the additional funding that COPFS expect to receive from Scottish Government in the Autumn Budget Revision.

7. All functions have been working closely with Finance Division to ensure appropriate monitoring and forecasting processes are in place.

8. Functions have been asked to provide business cases (preferably by January 2019) if any underspend should emerge during the latter part of the financial year. To date no new submissions have been received since the October Resources Committee (RC) meeting.

Action: Finance to reiterate message to functions regarding any business cases.

Pathology & Mortuary Update

Interim contracts are currently in place with new contract negotiations ongoing. An update report has been commissioned by the Executive Board for their December meeting. The Chair requested a paper providing an update in time for the next RC meeting on 10 January 2019.

COPFS Expansion Plan

Over half of required new staff have been recruited. In addition other staffing commitments in respect of Operational Support and Advocate Deputes were noted.

Spending Review/Finance Strategy

11. The 2019/20 budget planning process is currently underway. The expenditure of additional monies from Scottish Government is being tracked and monitored separately. COPFS are awaiting confirmation from Scottish Government of our budget allocation- December 2018.

Procurement Update

12. The Procurement Director provided a summary of progress made since the last update in September.
• The fifth set of all four Service User Leads (SULs) development programme events was delivered in November. Eight of the SULs have not attended any of the events. Five new SULs have been appointed.

• Work is ongoing in identifying whether relevant contracts are in place or whether one needs to be put in place. Engagement from the business with regular input from Heads of Business Management is required to assist with realising potential savings.

• The Procurement and Commercial Improvement Programme (PCIP) review takes place on 28 January 2019. An initial dry run has identified significant improvement in policies and processes.

• Internal Audit Division’s follow up review has been concluded. All six recommendations have been completed or work is ongoing.

• Following on from the Procurement Steering Board meeting on 14 February a further update will be provided to the RC at their February meeting. The RC noted the progress made.

**Non Staff Expenditure Update**

13. The DCE provided an update on the draft non staffing budget for 2019/20 based on savings contained within the Finance Strategy, other proposed savings as well as known pressures.

14. The budget allocation for 2019-20 will be announced by Scottish Government in early December. Following this it was agreed that a workshop will take place with Resources Committee membership, Business Service Heads and Heads of Business Management in respect of delivery of proposed savings (late January/February).
