

## Covid Deaths Investigation Team (CDIT)

### Monthly Stats – December 2020

Reports of covid deaths received by the Covid deaths investigation team							
	Reports of care home deaths that occurred after 21/05/2020 <sup>1</sup>	Reports of worker deaths that occurred after 21/05/2020 <sup>2</sup>	Reports of care home deaths that occurred before 21/05/2020 <sup>3</sup>	Reports of worker deaths that occurred before 21/05/2020 <sup>4</sup>	Deaths in custody <sup>5</sup>	Other deaths <sup>6</sup>	TOTAL
<b>Number of death reports received: 01/12/20 – 31/12/20</b>	344	1	114	0	0	170	629
<b>Total number of death reports now with CDIT</b>	929	7	624	9	5	331	1,905

<sup>1</sup> On 21 May 2020 guidance was issued that stipulated all Covid-19 or presumed Covid-19 deaths where the deceased was resident in a care home when the virus was contracted should be reported to COPFS.

<sup>2</sup> On 21 May 2020 guidance was issued that stipulated all Covid-19 or presumed Covid-19 deaths where the deceased might have contracted the virus in the course of their employment or occupation should be reported to COPFS.

<sup>3 & 4</sup> The guidance of 21 May 2020 applied retrospectively. The National Records of Scotland (NRS) have confirmed that the guidance applies to the deaths of 1,753 people who died in care homes. COPFS is aware of these deaths and they stand to be reported in due course as part of a co-ordinated multi-agency approach. Figures are regularly updated by NRS.

<sup>5</sup> All deaths in custody are reported to COPFS, irrespective of the presence or suspected presence of Covid-19.

<sup>6</sup> Other categories of deaths that require to be reported to COPFS are [explained here](#)
