I am writing to ask the Crown Office and Procurator Fiscal Service (COPFS) to confirm whether or not the COPFS or one of its offices or archives ever obtained the report of copy of the post mortem concerning the death of Robert Finlayson Cook (Robin Cook) MP, who died on 6 August 2005.</p> <p>The report was prepared under the Procurator Fiscal Dornoch and Tain. It is likely to have been a Fatal Accident Inquiry.</p> <p>In response to a previous FOIA (refs R023629 & R023637), I was told by COPFS that the report in question may have been retained by COPFS for a period of five years. Ergo, I am now writing to ask for confirmation that COPFS or one of its offices or archives: a) ever possessed the post mortem report or a copy and b) where the report or copy was transferred after the five year period (circa August 2010).</p> <p>Please note that I am not requesting a copy of the report in this particular FOIA. Rather, I am seeking the above confirmation.</p>	4-Jul-20	Not held

	If the COPFS or one of its offices or archives did retain the report or a copy, I would like to know where the report or copy is presently located. If the report or copy is no longer with the COPFS or one of its offices or archives, I would like to know where it was transferred and/or where it is currently located.

R024116	<p>I am interested in trying to obtain more details of the death of NAME REDACTED , the subject of the attached FAI determination. The determination refers to "The circumstances of Mr X death are as set out in paragraph 4 of the Notice of Inquiry issued by the Procurator Fiscal on 5 June 2018." The Scottish Courts and Tribunals Service provided me with a redacted copy of the Notice of Inquiry, but stated that all evidence for the FAI has been returned to yourselves, the Crown Office and Procurator Fiscal Service, following the conclusion of the FAI, as is standard practice. My interest in this case is the presence of 4F-EPH in the decedent's system and how it contributed to his death. Would it be possible to obtain a copy of the autopsy report and any toxicology reports (whether ante-mortem or post-mortem giving the levels of 4F-EPH, MDMA and lignocaine)? This is a unique case; I am only aware of one other death (in the USA) being reported in the literature worldwide involving this death, although there are others involving related substances.</p>	19-Sep-20	Part provided

Including Deputy Leaders Nicola Sturgeons £100,000 commissioned Prestwick airport which has also not been seen ,how many other reports apart from the police reports are there festering in the office pof the F>M ? Doing untold damage to Scottish Justice Probity and the economy ?

The reasons why some police reports go initially to the office of FM before being rubberstamped and forwarded on by the incumbent ?

Any concerns already raised about the current outstanding and in my view staggering delays ,being counted and stretching into decades rather than days ?

If any and or all of the above constitute abuse of office or dereliction of duty and needs to be "urgently referred to all those who accept urgent referrals about the conduct of those in the FIRST MINISTERS OFFICE AND ALL OTHER ELECTED OFFICIALS who similarly are failing to secure the immediate release of these documents for prompt action .

I under stand TOM ARTHUR MSP engages staff of such a calibre that they can't differentiate between run of the mill constituency work and 50 million pound losses along with ongoing failing DIGI ECONOMY figures amounting to some 46 billion per annum or three times the amount aprox that the barnet formula currently pays for Scotland to be run ,which affect not only one constituency but all and can be linked directly back to these withheld reports meaning his and others failure to pursue these issues to the easily traced ROOTS of the problems leaves him and others wide open to speculation that they are indeed conspiring to defraud the taxpayer ,tax collectors and the economy since the roots are already frequently mentioned in existing reports which NEVER OUGHT TO HAVE BEEN WITHHELD IN THE FIRST PLACE ?

Similarly evidence given by outgoing AUDITOR GENERAL caroline Gardiner to pappls committee has been withheld from both public and parliament and i presume the cabinet who once the statutory sentences are being issued will not be able to plead they did not know as their job is to ensure that they follow all leads and do know !

R-00372-21	<p>On the 9 October 2019 the COPFS refused to answer the FOISA 2002 request on the authorship of the 'Joint Protocol between Police Scotland and the Crown Office and Procurator Service: In Partnership Challenging Domestic Abuse' 5th edition that was released on Friday 10 May 2019. Since this request was refused the following issues have come to light: 1. Serious concerns have been raised regarding the interactions between Police Scotland and the COPFS which has resulted in the "Rangers FC pay out" by the Lord Advocate. 2. It has come to the attention of a Scottish Sheriff that Police Scotland pass false medical information [Special Category (SC) data as defined by the</p>	11-Feb-21	Exempt

Data Protection Act 2018] to Local Authority Councils but do not pass this exculpatory evidence to the COPFS as required by Section 164(2) of the Criminal Justice and Licensing (Scotland) Act 2018. 3. A Data Protection Impact Assessment (DPIA), released under FOISA 2002, has identified that Police Scotland have not confirmed that "multi-agency working" is compliant with the Data Protection Act 2018/General Data Protection Regulations (GDPR). Information in the public domain identifies that only Multi-Agency Public Protection Arrangements (MAPPA) meetings have the required Information Sharing Agreements (ISAs) in place that define the legality of the information sharing. A multi-agency meeting for an Inter-agency Referral Discussion (IRD) or Multi-Agency Risk Assessment Conference (MARAC) level has no legal personality and are not a legal entity as has been clarified recently by the Scottish Information Commissioner [https://www.itspublicknowledge.info/ApplicationsandDecisions/Decisions/2019/201900416\(1\).aspx](https://www.itspublicknowledge.info/ApplicationsandDecisions/Decisions/2019/201900416(1).aspx). Additionally the Scottish Government would appear to have no record of the Police Scotland DPIA for multi-agency working that was signed off by both ACC Gillian MacDonald and Police Scotland Information Governance despite the fact that the Scottish Government fund the MARAC Development Programme (MDP) and Data Protection law compliance is a requirement of the funding of SafeLives; 4. Both Detective Chief Superintendent Samantha McCluskey of Police Scotland and Anne Marie Hicks (Domestic Abuse Prosecutor) of the COPFS have appeared in a YouTube video (<https://youtu.be/kMKXFHrQvIY>) where they have acknowledged that allegations of criminality [arguably Criminal Offence (CO) data as defined by Part 3 the Data Protection Act 2018 and therefore "sensitive" data] are passed from the "Advocacy Service" to Police Scotland by a password protected "electronic portal" and Police Scotland then "sanitize" this data to hide the identity of the individual providing Police Scotland with this "intelligence". These actions inevitably lead to a Data Subject losing their Right to Rectification under the GDPR and can lead to miscarriages of justice as Police Scotland are destroying exculpatory evidence. 5. Information/data on the Police Scotland interim Vulnerable Persons Database (iVDP) has been "weeded" from this database yet Police Scotland has acknowledged that this data has been passed onto other organisations and once this has occurred the data is in free flow transmission and can be passed to other Data Controllers e.g. an organisation that employs a Child Welfare Reporter (CWR). Given that the iVPD contains both SC and CO data this "weeding" of data may be a way

	<p>of hiding unlawful data sharing [i.e. without a Information Sharing Agreement (ISA) and/or Appropriate Policy Document (APD)] being in place and thus the use of this database for proxy domestic abuse e.g. the population of social work systems with malicious and false information. Once false SC data (e.g. medical information) has been passed to local authorities it is in free flow between the various departments (e.g. education) of that Data Controller which can lead to unnecessary school security alerts as occurred once at a Scottish school information that was given in evidence by a Head Teacher during a recent prosecution. Given the above points it is in the public interest to identify those employees of the COPFS in addition to Anne Marie Hicks (who must be the senior author) who contributed to the 5th edition of the 'Joint Protocol between Police Scotland and the Crown Office and Procurator Service: In Partnership Challenging Domestic Abuse' that was released on Friday 10 May 2019, please provide the names or roles held by the individuals employed by the COPFS who contributed to this edition of the document as a FOISA 2002 request.</p>
